This auction is for a  
**POLK AUDIO Monitor 10 Series 200W Speakers**

**POLK AUDIO Monitor 10 Series  
200W Speakers ...Going  
CHEAP!!**

I will describe the item as best I can below:

Up for your bidding pleasure is this...POLK AUDIO Monitor 10 Series 200W Speakers .

You are bidding on an awesome pair of wall shakers... Polk Audio speakers. These babies sound good quiet as well as cranked up till your momma cries. I am selling these as I no longer have room for them. I purchased them a while ago from the original owner. They retailed for \$660.00 a pair back in 1988, and I have the receipt in hand (see picture). They have a walnut vinyl veneer and are in excellent condition. They also include the floor stands and an owner/instruction manual. Only defect I could find is that one of the tiny plastic pieces to hold the front cover on is missing from the bottom right corner, doesn't effect anything and cover still remains on fine.

#### Specifications:

- Driver Complement:
  - One 1 inch Polk SL 2000 silver coil dome tweeter
  - Two 6-1/2 inch Polk (6503) tri-laminate polymer bass-midrange drivers
  - One 10 inch fluid-coupled sub-woofer
- Size (inches) - 28H x 16W x 11-3/8D
- Weight (each) - 50 lbs
- Frequency Response - 20 Hz - 26,000 Hz
- Recommended Amplification - 10 - 200 watts/channel
- Nominal Impedance - 6 ohms
- Efficiency - 92dB (measured at 1 meter with 1 watt input)

Okay...some background here...why am I selling them... besides not having the room for them anymore...and not to brag... but, I use to work installing professional sound systems for many years, working with many great quality manufacturers like Altec, JBL, Bose, and others... and I have heard some of the best and I consider Polk to be right up there with the best. That being said, I would let these stand side by side to any comparable speakers from any of those manufacturers.

Trust me...if you let these slip by...then after the auction you will absolutely be kicking yourself in the rump.

Shipping Info: Please do not ask me for a quote...You can go to any shipping website and figure out shipping. Each boxed speaker weighs 55 lbs and the dimensions are 32" x 20" x 16". Add \$12.00 handling fee per speaker (\$24.00 total)... yes BIG boxes and packing materials cost money... or you can save the 24.00 and pick them up in Chico, CA Otherwise you will pay exactly what it costs to ship. My experience is that using FedEx Home Delivery is the cheapest.

This is a great opportunity to get a POLK AUDIO Monitor 10 Series 200W Speakers at a steal as this is a NO RESERVE auction!

I think that I have adequately described this item... and I want to be as descriptive as possible so that you know
