Description (revised)

Polk Audio 11t Speakers

These Sound Awesome & Look Great. All speakers are working perfect with no voice coil rub & the tweeters sound great. Each cabinet has two 6 1/2" drivers, two 8" passive radiators & one silver coil dome tweeter. The cabinets measure 39" high x 10 1/2" wide x 14" deep. They weigh 44 pounds each unpacked. I'm pretty sure they were made in the late 80's. What looks like a little white spot on the top left speaker in one of the pictures is a camera blooper. One cabinet is missing a tiny piece of oak veneer on the back top corner (see pic). It doesn't look bad at all. There are 3 pegs missing that the grille frame attaches to. It stays on fine but if you were to put two small pieces of velcro at the top, it would make it look perfect. Two of the 6 1/2" drivers have dented dustcaps but it doesn't effect the sound. For some reason, both negative posts are broken

off in back (where you connect the speaker wire). I removed one of the red caps to see that there is still just barely enough left of the negative posts to screw on a cap. I used an alligator clip on them when testing. I would be keeping these if I didn't already own a pair of RTA 15TL's. I don't have room for both. **Local Pickup Welcome.** Shipping the pair to New York is 78.00 which is the highest it gets. They will be packed with great care.

- **Winner pays actual shipping cost.**
- **All items are packed extremely well & sent Fedex Ground.**
- **Money Order, Cashiers Check or bidpay.com accepted.**
- **Sorry no Paypal.**
- **Payment expected within 10 days after the auction ends or items will be relisted.**
- **Thanks For Looking**
