Description

*Item Specifics - Home Speakers*Speaker Type: **Floor Standing**

Wireless: --

Brand: **Polk**Condition: **Used**Cabinet Color: **Wood - Dark**

These beautiful Polk SRS 2 speakers are in excellent condition in every way including the grills, walnut cabinets, and crossover cable. I am the original owner, purchased new in 1987. (no cats, non-smoker) Effortlessly produces room-filling sound you can feel on your body. These have never been overdriven, used only B and K amp/preamp before going to Denon 5700 Rx. They are so efficient that you don't need lots of power though. The bass is not the fake sound of an external subwoofer. It is what only cabinets of this size with 15 inch planar subwoofers can produce. Frequency response is 12-26,000 Hz. Pink Floyd's *The Wall* and Dire Straits *Brothers in Arms* is an experience!

From the Polk Audio Catalogue:

"The extraordinary lifelike three-dimensional imaging capabilities of the SRSs demonstrate the full performance potential fo Polk's exclusive and patented TRUE STEREO SDA technology. Music and ambience seem to surround the listener in an almost 360 degree panorama of sonic splendor which is, in the words of High Fidelity Magazine, 'Mind boggling . . Astounding . . . and Flabbergasting.' The almost unimaginably exciting clarity of the Signature allows you to hear every detail of the original musical performance; while the exceptionally smooth, natural, low distortion reproduction encourages you to totally indulge and immerse yourself in your favorite recordings for hours on end. Words alone can not express the experience of listening to these ultimate loudspeaker systems. You simply must hear them."
