(Description from Polk Audio Website)

The SDA - SRS is the flagship model of Polk's highly successful SDA Series. A high efficiency system of seemingly limitless dynamic range and bass capability.

Reproduces music with a precise, lifelike, three dimensional soundstage quality which is unequalled.

Power handling is nominally rated at 1000 watts per channel.

The high efficiency of the system allows superb performance to be realized with even the most moderately powered receiver.

Bass performance is, in a word, breathtaking.

The use of 8 small active drivers coupled to the large 15" sub-bass radiator results in extraordinarily tight, quick and three dimensional.

Mid and upper bass combined with low and sub-bass capabilities are staggering (clean output at 25 Hz exceeds 100db!)

An elaborate bracing system is employed resulting in a remarkably rigid cabinet which virtually eliminates colorations due to panel resonances. The speakers are beautifully finished in oiled oak and walnut.

Sorry, NO SHIPPING!

These babies are huge
Arrangements for pickup in Chicagoland
area only

Missing Reference Cable to connect
speakers together
Easily Replaced \$25 part or
Speakers can be played without cable (
