### Description (revised)

*Item Specifics - Home Speakers*Speaker Type: **Floor Standing**

Wireless: --

Brand: **Polk**Condition: **Used**Cabinet Color: **Wood - Light**

I am offering for sale a pair of hard to find Polk SDA SRS 1.2TL speakers (serial numbers SRS 1.2TL R 7147 and SRS 1.2TL L 7139). If you are an audiophile you already know of their legendary reputation. These speakers were bought in Riverside, California in June of 1991. They have been in my house ever since. I am retiring and moving to a small condo and will no longer have room for them. The retail price for these speakers according to Polk Audio's website was \$1695.00 per speaker. The physical specification of these speakers: Depth-13 1/8", Width-213/4", Height-631/2". They weigh 180 pounds each. The overall frequency response: 10Hz-26kHz with the recommended amplification from 50-1000 watts/channel. The following text was taken from Polk Audio Website and is quoted as followed: This product is a vintage Polk model and is not available for sale in stores other than as a used product. The following text is taken from the original sales brochure for this product and does not reflect current realities. Signature Reference Series: The Very Best of the Best. The legendary sound of Polk loudspeakers has for years been exemplified by its flagship Signature Reference Series (SRS), the speakers that carry Matthew Polk's signature. Indeed, the SRS loudspeakers have been largely responsible for Polk's reputation among audiophiles as a true innovator in sound reproduction. To see the full quote go to <http://www.polkaudio.com/home/products.php?category=3&speaker=274&vintage=1>. These speakers are in excellent condition for speakers that are almost 14 years old. The speaker cones, tweeters, and passive radiator are in perfect condition. There are no holes, tears, or dings in any of the speakers. The cloth grill has not faded and is intact with no hole and has not come unglued. They sound as good as the first day I bought them. These speakers have two minor cosmetic flaws, which I have documented in photographs below. The black metal nameplate on the left hand speaker has discolored. I don't know what caused this discoloration. I have ruled out fading from the sun because the cloth grill has not faded. There is also a flaw in the wood on the right speaker that is barely noticeable. It is about 1 inch by 1/2 inch and looks like a watermark. The flaw was in the speaker when they were delivered. I decided not to return the speaker because the initial delivery took so long in the first place. I have the original receipt, owner's manual; interconnect cable, bass brace, foundation feet, and the addendum for fastening the brace and feet to the speakers. Because these speakers are so heavy, I will not ship them. I live in the Inland Empire region of southern California (San Bernardino/Riverside/Redlands) and prefer a buyer that lives close by. I encourage any and all perspective buyers that lives in the area to stop by and inspect these speaker first hand. Please feel free to e-mail me if you have any further questions.

I have had a number of inquiries as to alternative payment options. I am new to ebay and haven't given much thought to the method of payment. I have decided that since pickup is required, postal money orders or cashiers checks ( BofA or Wells Fargo, ect.), are acceptable forms of payment upon delivery of the speakers.

I have added a closeup picture of the tweeters and midranges and a picture of the grills to my website (<http://homepage.mac.com/danageiger1/>). As ludicrous as this may sound, these speaker were not used very much. They speakers were downstairs and I stayed mostly upstairs with a surround sound TV and stereo. I had roommates for most of the years I had these speakers and they didn't appreciate "the noise." There were years that I didn't use these speakers more that a couple of times.

On Dec-19-04 at 08:05:34 PST, seller added the following information:

I have changed my website address for downloading picture of the Polk speakers. My new website address is <http://homepage.mac.com/danageiger1/FileSharing1.html>
