Safe Buying Tips

Description (revised)

Classic Polk Audio Model 7A. Production year 1978. LIST PRICE: \$319.90 Pair. Weight: 35 lbs. each!

Polk audio started their loudspeaker line-up between 1977-1978. Their concept remained the same in their selection of drivers. The model 7A pictured here is their 2nd from the Top-Of-The-Line out of a speaker line-up. Originally the cabinet had a dark walnut vinyl veneer and a brown color front baffle as shown. The cabinet had been marred with moderate amounts of scratches everywhere. Too unappealing for anyone who wanted to purchase these. Also, the grille cloth had holes and snags everywhere.

Shown today, up for bid is a pair of 7A's that have been restored to an absolutely beautiful appearance. The entire cabinet was stripped of the old vinyl veneer. It was lightly smoothed out and prepped for attachment of NEW OEM black vinyl veneer imported and used in the speaker industry. The texture is a black ash. All the rubber surrounds were cleaned and conditioned with premium professional products aimed at cleaning and restoring the natural properties of the butyl rubber surrounds.

NEW OEM Black polyester speaker fabric was installed professionally and with original metal logos. All drivers are stock & no modification was performed.

There are some MINOR imperfections to the veneer, but very subtle. Overall a spectacular pair of Polk's 7A's.
