# HUGE Polk Audio Floor Speakers SDA SRS 2.3 Home Theater

**THESE SPEAKERS ARE FOR LOCAL PICK-UP ONLY IN THE ATLANTA AREA OR BUYER ARRANGES SHIPPING.**

Up for a NO RESERVE auction is this pair of Large, 55" Tall Polk Audio Speakers, SDA SRS 2.3. These speakers are part of the "Signature Reference Series" (SRS) which has the best reputation for high quality sound and performance. They can put out some serious sound! Each cabinet contains 6 Polk 6.5" trilaminate-polymer drivers, a planar 15" sub-bass radiator, and 3 Polk 1" Silver Coil polyamide dome tweeters. The use of 4 small active drivers coupled to the large 15" Sub-Bass Radiator results in extraordinarily tight, quick and three dimensional mid and upper bass combined with low and sub-bass capabilities, which are staggering. The set is in great condition and good working order. Also included is the manual and the Sequencing/ Phasing Cable that connects the 2 speakers. The screens/grills show some wear and there are some marks on the sides. Note that the speakers are missing the small feet that they are supposed to sit on, which does not affect anything. Please view the photos for more details.

Each speaker measures 55" x 13" x 20".

Pick up is easy - item is located at our store in the heart of Buckhead in Atlanta at 3228 Roswell Rd, Atlanta, GA 30305. Our store hours are 10am-6pm Mon-Fri and 10am-4pm Sat. ## SDA Signature Reference System Right Channel

Designed and manufactured in the U.S.A. by Polk Audio, Inc., Baltimore, MD, under U.S. patent nos. 4,289,432 and 4,487,864. Other patents pending, U.S. and foreign.

**SERIAL NUMBER**  
GHS 2, JTL, H 4457

Refer to the owner's manual for complete instructions for proper installation, room placement and connections to amplifier(s).

**SET-UP INSTRUCTIONS**

**Interconnect socket**  
High Frequency Bi-amp inputs (See Manual)

**Jumpers**  
(Refer to manual for bi-amplification or bi-wiring)

**Inputs for Normal Operation**  
(Low frequency inputs for bi-amplification)

**WARNING: Do Not Remove Jumpers except prior to bi-amplification or bi-wiring.**

- Place left and right cabinets on correct sides as viewed from the listening position.
- Speakers should face straight forward. **DO NOT ANGLE SPEAKERS INWARD OR OUTWARD.**
- CRITICAL: NOT ONLY MUST SPEAKERS BE CONNECTED IN PHASE WITH EACH OTHER, THEY MUST ALSO BE IN CORRECT ABSOLUTE PHASE.** Connect amplifier plus (+) to black speaker input. Reversed connections on either or both cabinets will prevent speakers from functioning correctly.
- Connect the Interconnect Cable from the Interconnect Socket on the right speaker to the Interconnect Socket on the left speaker.
- Although the SDAs will offer outstanding reproduction throughout the room, the best and most dramatic sound realism will be obtained when you are seated in the middle, equidistant from the two speakers as illustrated. (See Manual for greater detail.)

**WARNING: USE COMMON GROUND AMPLIFIERS ONLY**  
Nearly all amplifiers and receivers are common ground. Use of non-common ground units may result in damage to the speakers and amplifier unless you use the 60-1 Ampmeter Interface available from your Polk Dealer. If you think your unit may not be common ground, call your dealer or Polk Audio, Inc. (301-354-3600). See Owner's Manual for greater detail.
